

EXCLUSIVE 0W20 SN DPF

0W-20 is an advanced, fully synthetic motor oil designed to provide extraordinary motor protection and better fuel economy. 0W-20 meets or exceeds the requirements of various car manufacturers and industrial standards and performs better than traditional oils.

Properties and Benefits

- ✓ In all work and driving conditions, it provides excellent wear and tear in new generation and high-performance gas or diesel engines.
- ✓ Its low flyover reduces fat consumption, thus helping reduce hydrocarbon pollution.
- ✓ The active cleaning feature controls sediment and mud formation, thus keeping the motor parts clean and lowers maintenance costs.
